### 2. Reason for the Revisions

Increased sales to automobile manufacturers and in the domestic after-market contributed to a rise in net sales during the first six months (April 1, 2010, to September 30, 2010). At the same time, the Company continued striving to boost operating efficiencies.

As a result, we now expect that first-half net sales and income will be higher than previously anticipated. We have revised our consolidated first-half forecast accordingly, as indicated above.

We will include our full-year forecast in our announcement of consolidated financial statements for the first six months of the fiscal year ending March 31, 2011.

#### Cautionary Statement:

The forecasts and future projections stated above have been prepared on the basis of the information available as of the date of this announcement.
